About

Well-qualified Full Stack Developer with expertise in developing robust backend APIs using Java and Node.js and creating dynamic front-end web applications with React. Skilled in managing full development lifecycles, mentoring interns, and guiding teams through complex workflows. Adept at building custom solutions for small businesses and delivering scalable applications. Collaborative team player with strong problem-solving skills and a proven ability to lead and teach others. Offering 2+ years of hands-on experience in software development across various industries.

Experience

- Sept 2023 - Present
Full Stack Dev @ Iloma Technology Pvt. Ltd
At Iloma Technology, I worked as a Full Stack Developer, developing backend APIs using Node.js and front-end web applications with the React framework. In addition to my development responsibilities, I also mentored new interns, helping them onboard and improve their technical skills. As a senior developer, I managed application workflows and guided team members through complex tasks. My role involved ensuring code quality, fostering collaboration, and delivering scalable solutions. This position strengthened my leadership abilities and deepened my expertise in full stack development
- 2021 - 2023
Freelance Developer @ Self-Employed
As a freelance software developer, I began my journey by building custom solutions for small businesses in Buldhana, including a HairXpertise app (Queue management system) for Salons and a student management system for the local school. These applications helped streamline operations, reducing wait times, and improving administrative efficiency. Through close client collaboration, I tailored software to meet specific needs, leading to enhanced customer satisfaction. My work resulted in increased productivity and received positive feedback for delivering user-friendly, impactful solutions. This experience laid a strong foundation for my career in software development.

Education

- 2018 - 2021 - Buldana
Sant Gadge Baba, Amaravati University
Bachelor of Science In Computer Science
Foundation knowledge in Computer Science, Advanced mathematics and physics, focusing on software development, algorithms, and data structures.
- 2016 - 2018 - Nagpur
Santaji Mahavidyalaya, Nagpur
Higher-Secondary Education (12th)
Completed 12th standard in the Science stream, with a focus on Physics, Chemistry, Mathematics and biology with extra subject of Information Technology

Interests

Projects

* Those project I found challenging and had fun developing

Color Pencil – Math Learning Platform

React, Node.js, MySQL

- Developed an interactive math learning platform for children in grades 1 to 6 with an engaging UI designed to make learning fun.
- Implemented features that allow students to compete with peers both nationally and globally, fostering a sense of challenge and motivation.
- Created two user roles: Parent and Student. Parents can register students, purchase plans, and monitor their child's progress via monthly reports and mistake analysis.
- Integrated a progress monitoring system, enabling parents to review performance and track their child's improvement over time.
- Developed an Admin Portal for the app owner to manage all data shown to parents and students, oversee subscription plans, and generate various types of coupons for users.

Generic E-Commerce APIs

React, Node.js, MySQL

- Developed a versatile set of e-commerce APIs designed for seamless integration across various platforms, enabling consistent functionality for different applications, including restaurant apps, online course selling, and product sales.
- Implemented a RESTful architecture to ensure that the APIs are reusable and adaptable to a wide range of e-commerce scenarios.
- Focused on providing essential e-commerce functionalities such as product management, order processing, and user authentication.
- Ensured robust error handling and validation mechanisms to enhance API reliability and user experience.
- Utilized MySQL for database management, optimizing data handling for high-volume transactions.

Declaration

- I, Abhinav Dilip Ingle, hereby declare that the information provided in this resume is true and accurate to the best of my knowledge. I understand that any false information may lead to disqualification from consideration for employment.
